

School grateful for annual sponsors

The students of the Abilities First School Programs were very fortunate to have two very generous benefactors this Christmas season. For more than 40 years, the members of the Tri Po Bed Grotto have sponsored Santa and his huge sack of gifts for more than 60 children at our North Road school site. At our Beacon school site, the Beacon Elks Club once again made it possible for each child to receive a special gift from Santa. These holiday parties for our students would not be possible without the wonderful generosity of these two organizations, and we would like to sincerely thank them for their yearly support.
